

INSTRUCTIONS

Your tasting kit contains:

- 2 placemats for organizing the tasting
- Plastic tasting cups
- Measuring cups for making the Caesars and the OJ+Zirkova
- Clamato the Works (Gluten free – but not Vegan)
- Bottle of Orange Juice and a can of sparkling water (lime in case you like that)
- A vial of ultra premium comparison vodka (you can also use your favourite from home if you like)

Put the two Zirkova Bottles and the comparison vodka in the same location

- All 3 vodkas need to be the same room temperature for the Experience

Refrigerate the Clamato and juice so that it is cold

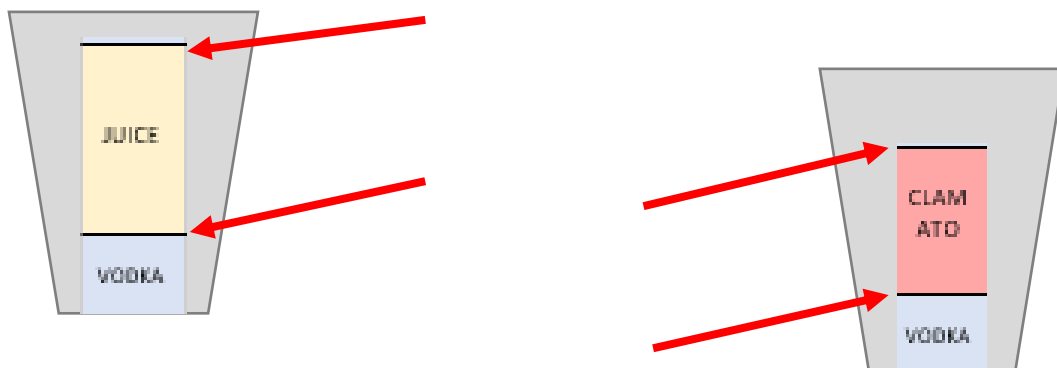

JUST BEFORE THE TASTING:

Pour a small sample of each vodka into a cup and place on the appropriate circle (1,2,4)

Pour a small amount of Zirkova One into a cup and top with sparkling water (and a bit of lime if desired) and place on circle 3. Use the ratio that you like in vodka & soda.

Pour orange juice into a cup and place on circle 5

Using the measuring cup, add a bit of Zirkova Together up to the line. Then top up to the second line with Orange Juice. Then pour into a cup and put on circle 6

Using the measuring cup, add vodka to the first line, then top up with well shaken Clamato juice. Do this for the comparison vodka (circle 7) and Zirkova Together (circle 8).
